

Canada TN Association

www.CaTNA.ca

CaTNA is a network of support groups across Canada for those people with Trigeminal Neuralgia and other facial pains. Membership is \$10 per year. Bi-monthly newsletters are produced and these can be mailed to members for an additional \$10 per year. Membership fees help provide start-up funding for new support groups and fund Canada wide communications such as the web site.

Donations can also be made to any support group. Support group donations are used to rent space for meetings, provide print materials for members, and to help with arranging guest speakers for the group.

At this time income tax receipts are not available.

Membership in CaTNA also includes automatic membership in the TNA of the USA.

To join, send membership fee (and newsletter mailing fee if required) to
